

A solid year for Endress+Hauser

Sales, results and headcount increase significantly in 2017

In its preliminary financial figures for 2017, Endress+Hauser reported a broadly supported growth in sales, solid profitability and a marked increase in employment. The company is a leading global provider of process and laboratory measurement engineering, automation solutions and services.

The Group's consolidated net sales rose 4.8 percent to 2.2 billion euros. Exchange rate impacts prevented the company from generating even better numbers for the year. "Expressed in local currencies, we grew more than six percent in 2017," emphasized Chief Financial Officer Dr Luc Schultheiss.

"The consumer-driven economic boom has now reached the capital goods industry as well," said Matthias Altendorf, CEO of the Group. Higher demand for the company's products and services spurred a significant increase in new hires, especially in production. Endress+Hauser had 13,299 employees at the end of 2017, an increase of 296 over the prior year.

Into the current year with momentum

Following another upswing in the business during the fourth quarter, the measurement technology specialist entered the new year with a sizeable rise in backlog orders. For 2018, the family company expects to see growth in the mid-single-digit percent range.

The audited financial figures for 2017 will be presented on 8 May 2018 in Basel.

The Endress+Hauser Group

Endress+Hauser is a global leader in measurement instrumentation, services and solutions for industrial process engineering. The Group employs more than 13,000 personnel across the globe, generating net sales of over 2.2 billion euros in 2017.

Structure

With dedicated sales centers and a strong network of partners, Endress+Hauser guarantees competent worldwide support. Our production centers in 12 countries meet customers' needs and requirements quickly and effectively. The Group is managed and coordinated by a holding company in Reinach, Switzerland. As a successful family-owned business, Endress+Hauser is set for continued independence and self-reliance.

Products

Endress+Hauser provides sensors, instruments, systems and services for level, flow, pressure and temperature measurement as well as analytics and data acquisition. The company supports customers with automation engineering, logistics and IT services and solutions. Our products set standards in quality and technology.

Industries

We work closely with the chemical, petrochemical, food & beverage, oil & gas, water & wastewater, power & energy, life science, primaries & metal, renewable energies, pulp & paper and shipbuilding industries. Endress+Hauser supports its customers in optimizing their processes in terms of reliability, safety, economic efficiency and environmental impact.

History

Founded in 1953 by Georg H Endress and Ludwig Hauser, Endress+Hauser has been solely owned by the Endress family since 1975. The Group has developed from a specialist in level measurement to a provider of complete solutions for industrial measuring technology and automation, with constant expansion into new territories and markets.
